

Let's make Ohio the first state since 1973 to protect every
preborn child in state law.

Ohio shamefully aborts 25,000 babies annually through abortion, with no end to abortion in sight – *at least until now*. The Ohio Personhood Amendment will protect *every* preborn baby through amending the state constitution to define “person” to include preborn children. If we gather at least 385,000 signatures, we can put the Personhood Amend-

Ohio kills 25,000 babies annually with beating hearts and measurable brain waves. You can help us protect them all.

ment on the ballot on Election Day, and we can protect *every* child *through a simple majority* vote. Imagine, the end of the Abortion Holocaust in Ohio by the end of next year! We can do it in Jesus' name!

God's Word tells us that the shedding of innocent blood brings His judgment upon our land (Deut. 9, Num. 35). These are children created in His image being killed—*His* kids!—and He takes it personally. The Bible tells us that protecting the innocent through justice will cleanse our land of bloodguilt and secure God's blessing. Ohio can lead the way for the nation!

I know what you're thinking. Why didn't Ohio do this in 1973 when the Supreme Court issued the immoral and unconstitutional ruling? The same reason Israel was sentenced to wander in the wilderness for forty years: unbelief. So many people think that “liberty and justice for all” is an impossible dream. But as the Ohio state motto says, “With God, all things are possible” – especially His will, and “It is not the will of your Father in heaven

that one of these little ones should perish” (Matthew 18:14). Not one! If we ask anything according to His will, believing that we will receive it, God promises that we will have it (I John 3:22; Mark 11:24). Amen?

What About the Supreme Court?

Some pro-life organizations invest their resources regulating abortion instead of banning it. They fear that if a statewide Personhood Amendment passed, the judiciary may overrule it and this would strengthen the *Roe v. Wade* decision; thus, some pro-life organizations consistently oppose laws that protect all children’s right to life.

Their argument is perfectly reasonable *IF* there is no God. We choose, however, to believe God’s Word and to lovingly fulfill our duty to protect “the least of these” as we would want to be protected. “If God be for us, who can stand against us?” The battle belongs to the Lord.

Implied in the objection of these pro-life organizations is that states should submit unto judicial tyranny. The Supreme Court, however, is not God. Their rule is limited by divine law and by the U.S. Constitution. Ohio is no more bound to submit to unlawful and immoral judicial decisions than we would be to submit to a judge who ordered us to kill every one of our children after our first (like China’s forced abortion law). As the Apostle Peter said, “We ought to obey God rather than man.” Any man-made law that is contrary to the Constitution is void. God orders Ohio’s civil authorities to protect the innocent through justice (Rom. 13:3-4).

What About Contraception and In Vitro Fertilization (IVF)?

Abortion advocates have argued that the Ohio Personhood Amendment would ban hormonal contraception and IVF procedures. They are dead wrong. To insulate our Amendment from these lies, we have specifically stated in our wording that contraception that acts by preventing conception and In Vitro Fertilization that respects the right to life of newly created human beings would NOT be affected by our Amendment.

We invite you to visit PersonhoodOhio.com, print out petitions, and help us gather signatures. Don’t just be a spectator in the greatest civil rights battle of our generation! It’s time to end the killing, and protect every preborn Ohioan by love and by law.
